RELIABLE PARTNER FOR A SUSTAINABLE PIPING SOLUTIONS

We are PST Piping, a global leader in sustainable piping solutions. We provide world-class PVF products, distribution, and services to our clients around the globe.

By offering the most reliable and consistent materials management experience available in the industry, our clients can rest assured they are in good hands with their piping projects.

Our teams of highly-trained and experienced piping professionals deliver top-notch project supply management, consulting, and turnkey services and solutions.

As one of the largest PVF suppliers globally, we are committed to delivering the highest quality.

What Sets Us Apart

Specialized Core Services

We do what we do best – Our niche focus in sourcing, manufacturing, and distributing the highest quality PVF materials makes us the best fit for your company's next piping project.

Environmental Consciousness

Sustainability and environmental consciousness are at the forefront of strategic priorities and initiatives over the next decade.

Industries We Serve

Our teams of highly-trained and experienced piping professionals deliver top-notch project supply management, consulting, and turnkey services and solutions to our partners in industries such as:

- ✓ Oil & Gas
- ✓ Hydrogen
- ✓ Renewable Energy
- ✓ Power
- ✓ Mining
- ✓ Water
- ✓ Utilities
- ✓ Ship Building
- ✓ And more

Our Mission

To help our client lower procurement costs and control risks on their capital projects.

Maintenance, repair, and operations

- Preventative maintenance
- Operational maintenance
- Corrective maintenance
- Adaptive maintenance
- Inventory management
- SLA Logistics

Value-added services

- Logistics
- Documentation
- Online solutions
- Internal ERP (RFQ order)
- Customer portal
- Heavy Equipment/ Machinery Rental

Our Services

Project Management

We supply piping materials throughout the complete procurement process, from the first materials take off to project completion. Regardless of if your business needs longer lead times or requires assistance on a more urgent timeline, our team is prepared to offer a dynamic, custom, and effective project management solution for your company's projects

Long Term Agreements (LTA)

For customers who need support on a long-term basis, we offer fixed price agreements that span a number of years. We understand that every project has different requirements and service lengths, so we work hand-in-hand with you to develop a custom-tailored solution, including escalation clauses, buybacks, etc.

Environmental Consciousness

PST is working on going completely green in the near future, focusing on generating power through renewable means such as solar panels. Our goal is to be carbon neutral and zero emissions as soon as possible. Sustainability and environmental consciousness are at the forefront of strategic priorities and initiatives over the next decade. We look forward to expanding our partnerships with other sustainability-focused organizations worldwide. Our efforts are focused on four primary categories:

Energy Saving

Our production and distribution methods maximize operational efficiency to mitigate energy usage.

Eco-friendliness

Whenever possible, we advise clients on how to improve the eco-friendliness of their operations.

Reduce Carbon Footprint

In an industry not well known for emphasizing sustainability efforts, we differentiate ourselves from our competition by making an active effort to reduce our carbon footprint.

Waste Management

Reduce-reuse-recycle is part of our culture.

Our Products

As a premier supplier, we distribute the following products – in all steels and special alloys – worldwide:

Products

- Pipes
- Fittings
- Flanges
- Valves
- Gaskets
- Stud Bolts
- Piping Accessories
- Special Piping - including Zecor
- HDPE Pipe
- All types of coated pipes
- Prefabricated Spools

Grades

- Carbon Steel
- Stainless Steel
- Low Temperature Carbon Steel
- Duplex/Super Duplex
- Nickel Alloys
- Chrome Alloys
- Specialty Metals
- And other exotic alloys
